## SOUTH POINTE PENTHOUSE, MIAMI BEACH

---

Collarte Interiors is a full-service interior design practice based in Miami, Florida specializing in bespoke designs for residential clients. The studio sculpts rich and layered spaces with a sense of purpose. Weaving classic and contemporary elements into each of their projects, they conceive interiors that feel refined, serene and soulful. Their philosophy melds warmth with modernism, resulting in timeless environments for a modern lifestyle. Collarte Interiors' projects are instilled with exceptional furnishings, contemporary artworks and collectible design. Organic fabrics drape effortlessly over vintage rugs and light filled rooms enhance earthy tones to feel authentic and familiar. Their practice gravitates towards natural textures and neutral hues. They embrace organic materials, and their inherent beauty and source finishes that age elegantly over time. The way a stone acquires its patina, wood weathers, and metals burnish encapsulates the very essence of a well-worn home. Collarte Interiors' artistic process favors a personal approach in order to create truly personal homes, responding to a project's sense of place and spirit, not a period or style.

In this minimalist penthouse a radical art collection takes center stage. Pared down interiors balance monolithic forms and provide a striking setting for the artworks. Collectible design pieces hold tension and dialogue with an array of Italian Modern masterpieces including works by Giorgio Morandi, Lucio Fontana and Michelangelo Pistoletto. Uninterrupted views of the vibrant Miami Skyline and mesmerizing ocean vistas serve as a breathtaking backdrop, providing a sanctuary in the sky.
